

KAMAL BDRAN

SOFTWARE PROJECT MANAGER

Alhakeem St. , Damascus City | [+49 1520 4384903](tel:+4915204384903) | kmlbdran@gmail.com | [GitHub](#) | [LinkedIn](#) | [Xing](#) | [Facebook](#)

I am a passionate software project manager with two years of professional experience in building dynamic and responsive web applications. Proficient in technologies such as springboot , Node.js, Laravel and React.js
In addition to my development skills, I serve as a project manager, overseeing all aspects of software projects from analysis to deployment, ensuring timely delivery and alignment with client requirements.

SKILLS

Node.js	HTML	Tailwind	MySQL	Express	TypeScript	Java	Git	Linux	Trello
React.js	CSS	Redux	MongoDB	Oracle	JavaScript	Spring boot	Docker	Clockify	Jira

PROJECTS

Restaurant Management System Ladurée March 2023 - August 2023

- I have created a comprehensive restaurant platform using the MERN stack, tailored specifically for the renowned French restaurant Ladurée. This platform offers a seamless and integrated experience for managing various aspects of the restaurant operations, from online ordering to table reservations, enhancing the overall dining experience for Ladurée's customers.

ROLE : Backend Developer , UML Designer

S.A.R.A. Syrian Association For Rescuing Animals April 2024 - August 2024

- A web platform and mobile application I created for the Syrian Animal Shelter. It streamlines donation management, adoption services, monthly funding, comprehensive animal care management, and automates administrative tasks within the shelter.

ROLE : Backend Developer , Project Manager , System Analyst

HR Management System Super Shield January 2024 - May 2024

- I actively contributed to an HR Management System both administratively and through backend interface development. This system features a web platform seamlessly integrated with an internal biometric fingerprint device. My involvement spanned overseeing administrative functions and architecting the backend infrastructure, ensuring a robust and efficient system that streamlined HR operations effectively.

ROLE : Project Manager , Software Tester , System Analyst

Product Distribution System Super Shield May 2024 - August 2024

- I have also developed a product distribution application that encompasses various roles including the representative, customer, manager, and owner. This application facilitates seamless interactions between these roles, enhancing the distribution process and improving overall operational efficiency.

ROLE : Project Manager , Software Tester , System Analyst

LMS - THEQA ICR December 2024 - January 2025

- Thiqah LMS is a comprehensive learning management system designed to enhance online education. I worked as a Project Manager and Tester, ensuring quality and seamless functionality.

ROLE : Project Manager , Software Tester

NAWAFRHA ICR January 2025

- Nawafrrha e-commerce is a comprehensive car products system designed to enhance online payments . I worked as a SoftareTester, ensuring quality and seamless functionality.

ROLE : Project Manager, Software Tester

Source-Safe University Project October 2024 - January 2025

- Developed a web-based collaborative file management system using Spring Boot, ensuring controlled access, real-time file locking, versioning, notifications, and backup support. Implemented role-based group management, concurrency control, and auditing for secure and efficient multi-user collaboration.

ROLE : Backend Developer , software Tester

LMS - ELITE**ICR****January 2025**

- Elite LMS is a comprehensive learning management system designed to enhance online education. I worked as a Project Manager and Tester, ensuring quality and seamless functionality.

ROLE : Project Manager , Software Tester**Eduerka****ICR****February 2025**

- Eduerka serves as a platform connecting students with educational consultation and scholarship opportunities. It aims to provide guidance and support to students seeking academic advice and financial aid for their educational endeavors. Through Edorka, individuals can explore various educational resources, mentorship programs, and scholarship opportunities to assist them in achieving their academic and career goals.

ROLE : Software Tester**Tadawl****ICR****December 2024 - March 2025**

- Tadawul website is an e-platform that provides multiple financial services such as financial brokerage, account activation, electronic payment cards, and Etqan “Edfa3li” to facilitate electronic payment operations , it aims to provide a smooth experience for users with an easy-to-use interface and supervisors (administrators)

ROLE : Project Manager , System Analyst , Software Tester**Takatuf****Graduation project****December 2024 - September 2025**

- Project Takatuf is a groundbreaking graduation project that aims to support both productive households and unemployed individuals by transforming their innovative ideas into viable commercial ventures. This project operates as a system that provides assistance to local communities, particularly focusing on fostering entrepreneurship and economic independence.

ROLE : Project Manager , System Analyst , Software Tester , Backend developer**PROFESSIONAL EXPERIENCE****Project Manager || Backend developer****Super Shield****January 2024 - October2024**

- In terms of work experience, I began my journey at SuperShield as a backend developer, initially working on training projects before transitioning to real-world projects. Subsequently, I progressed to the role of Project Manager, leading a full programming team and successfully managing three projects to completion. This transition allowed me to leverage my technical expertise in a leadership capacity, overseeing project execution and ensuring their success.

Project Manager || Software Tester**ICR****December 2024 - March 2025**

At **ICR**, I played a multifaceted role that encompassed project management, web development, and software testing.

- Project Manager: I successfully managed software projects from inception to completion, overseeing all phases including requirement analysis, planning, execution, and deployment. I coordinated cross-functional teams, ensured timely delivery, and maintained high-quality standards to achieve project goals.
- Software Tester: In my role as a software tester, I conducted comprehensive testing processes to identify bugs and ensure functionality across applications. I developed test cases, executed tests, and worked with developers to resolve issues, ensuring a high-quality product delivery.

Software Engineer**WeMatch****September 2024 - February 2025**

At **WeMatch**, I serve as a Software Engineer, contributing to the design, development, and optimization of scalable software solutions

- Software Engineer: : I design and develop high-performance applications, leveraging technologies such as [mention relevant technologies]. My role involves writing clean, efficient code, optimizing system performance, and collaborating with cross-functional teams to deliver innovative solutions. Additionally, I ensure code quality through testing, debugging, and continuous improvement practices

At **Maizny**, I played a multifaceted role that encompassed project management, software testing and QA

- Project Manager: I successfully managed software projects from inception to completion, overseeing all phases including requirement analysis, planning, execution, and deployment. I coordinated cross-functional teams, ensured timely delivery, and maintained high-quality standards to achieve project goals.
- Software Tester & QA : In my role as a software tester, I conducted comprehensive testing processes to identify bugs and ensure functionality across applications. I developed test cases, executed tests, and worked with developers to resolve issues, ensuring a high-quality product delivery.

CERTIFICATES

SPRING FRAMEWORK

LEARN QUEST

Certificate link

NOVEMBER 2025

- Spring - Ecosystem and Core
 - Spring Data Repositories
- Spring MVC, Spring Boot and Rest Controllers
Spring - Cloud Overview

AGILE PROJECT MANAGEMENT

GOOGLE

Certificate link

JANEURY 2025

- Explain the Agile project management approach and philosophy, including values and principles.
- Discuss the pillars of Scrum and how they support Scrum values.
- Describe the five important Scrum events and how to set up each event for a Scrum team.
- Explain how to coach an Agile team and help them overcome challenges.
